³ As it has come to be generally accepted by the international retailers the format of discounter should meet the "one commodity - one demand" requirement. But it is important to emphasise that in Russia the discounter format doesn't exist. At the same time the specialists of INFOLine IA would like to distinguish two subformats of the convenience store format: soft discounters, the formats of the number of the largest Russian players, such as Pyaterochka, Diksi, Magnit, Monetka, Kopeika, Maria-Ra and others, and convenience stores.

Due to the peculiarities of the information disclosure procedure applied by X5 Retail Group, the number of stores is presented as of the end of June 2016, the dynamics of a store number is presented for the period January-June 2015-2016
