Rating of FMCG retailers in Russia

December 2013

Demo-version

- Statistics of retail bussiness in Russia and regions
- Changing of the main retail indicators in Russia
- Review of Russian retail market developments in 2013
- Rating of FMCG retailers by the number of stores, selling area in November 2013 and revenues in 2012, the first half of 2013 and 9 months of 2013

Content of the industry review "Rating of FMCG retailers in Russia: November 2013"

Introduction

The industry review **“Rating of FMCG retailers in Russia”** contains information about the development of the retailing sector, the overview of events that took place on the Russian retail market during the period under review (for the present survey this is December 2013), the information related to the results of operating, financial and investment activities of FMCG chains in Russia, as well as **the rating of 130 largest FMCG retail chains of Russia**. Due to the specific of the information disclosure operating data is not updated from the previouse review. Year results will be provided in the January issue.

The report is prepared on the basis of the integrated set of data sources:

- Regular monthly polling of more than 150 retail chains of Russia by the experts of INFOLine IA;
- Materials from MSM (printed press, electronic MSM, federal and regional information agencies);
- Information materials of the retail chains and supplying companies (press-releases, Web-site content, yearly and quarterly statements, trade literature regarding the securities issue and investment memorandums);
- Financial statements of the chains according to the international standards (audited and managerial);

At the present time a large variety of specialist in Russia require immediate and true-to-life coverage of events on the Russian retail market:

- Top-managers, specialist of marketing and sale department of companies that produce consumer goods;
- Top-managers, specialist of marketing and retail chains development departments;
- Specialists of sale departments of companies that produce goods for retail trade and offer services for various trade chains.
- Private and institutional investors, which own or are planning to acquire the assets in Russian retail chain trade.

The principal objective of “Rating of FMCG retail chains in Russia” is to satisfy the demand for immediate, statistical and analytical information on the Russian retail bussines and FMCG chains for the specialists of the above-mentioned specialisations. To be able to receive the forthcoming issues of the survey, please, **forward a request to** INFOLine IA, E-mail: mail@advis.ru or by fax + 7 495 772 76 40 (+7 812 322 68 48) and **conclude a contract for our information services**.

	Total Company	**Total formats**	*	*	*	*	*	*	*	*	*	*	*	*	*
Auchan Groupe (Auchan, LTD.)	Auchan, Auchan-City, Raduga	H	*	*	*	*	*	*	*	*	*	*	*	*	*
	real,-	H	*	*	*	*	*	*	*	*	*	*	*	*	*

[5] As it has come to be generally accepted by the international retailers the format of discounter should meet the "one commodity - one demand" requirement. But it is important to emphasise that in Russia the discounter format doesn't exist. At the same time the specialists of INFOLine IA would like to distinguish two subformats of the convenience store format: soft discounters, the formats of the number of the largest Russian players, such as Pyaterochka, Diksi, Magnit, Monetka, Kopeika, Maria-Ra and others, and convenience stores.

[6] The rating was updated according to the results of January-April of 2013. It presents the chains with sales revenue of more than 6 billion rubles.

Data source INFOLine IA, according to the companies’ data

Research (full version) includes the rating of the TOP largest FMCG chains

Rating of FMCG retail chains of Russia by selling space

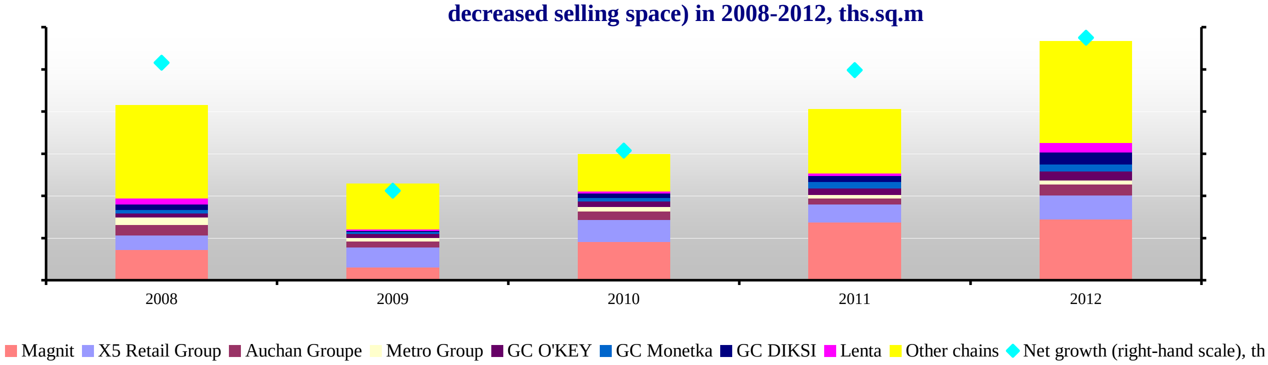
INFOLine IA has been monitoring the dynamics of selling space changes in FMCG retail since 2006. At the present time we monthly analyse the data regarding the changes in trading space for 130 largest FMCG retailers of Russia ***(since January 2013 the number of monitored retailers increased from 110 to 130).***

The results of 2008-2012

<…>

The key tendency of 2012 was the declining of growth rates of the largest multiformat chains (Magnit and X5 Retail Group), of retailers developing large-format outlets (Auchan, Metro C&C, O'Key, Lenta), as well as federal retailers with the remaining key format of the convenience store (Diksi, Monetka), while other chains increased their development rates (in the first place due to high growth rates of such chains as Fix Price, Holiday GC, Maria-Ra, TH Intertorg (Narodnaya 7Ya) and others). For instance, the two biggest retail companies of Russia (Magnit and X5 Retail Group) accounted in 2012 for *% (in 2011 – *%, in 2010 – *%, in 2009 – *%, in 2008 – *%) of the total selling space growth.

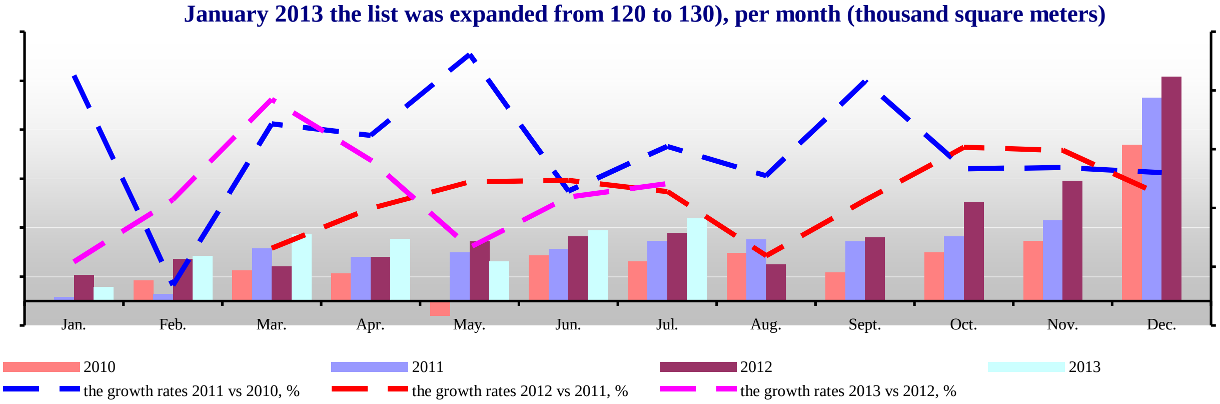
Dynamics of selling space growth of 130 major retailer of Russia (excluding retailers with decreased selling space) in 2008-2012, ths.sq.m



The results of the first half of 2013

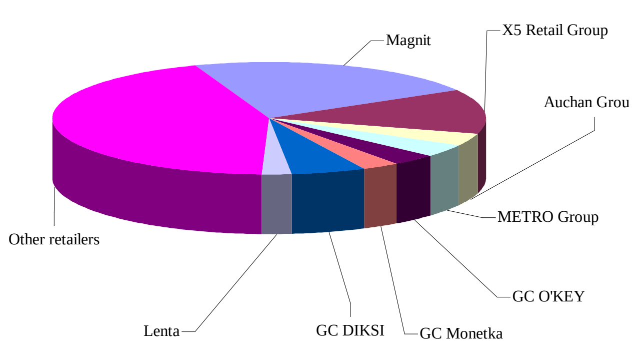
In **November 2013** 17 largest chains increased their selling space by 72.3 thousand sq. m. (excluding X5 Retail Group). The dynamics of monthly selling space growth of the major 130[8] chains are represented at the diagram below. The selling space growth was provided by commissioning of Auchan, Magnit, Magnit Family, Metro, Lenta, Alleya, Liniya, Atak, Maria- Ra, SPAR, O'KEY-Express, Azbuka vkusa, Matrix, Vivat, Econom, Krasny Yar, Metropolis, Gurman,. In discounter and convenience store format shops – Magnit, Pyaterochka, Diksi, Maria-Ra, Monetka and others.

Dynamics of net selling space growth of 130 largest retailers of Russia in 2010-2013 (starting with January 2013 the list was expanded from 120 to 130), per month (thousand square meters)

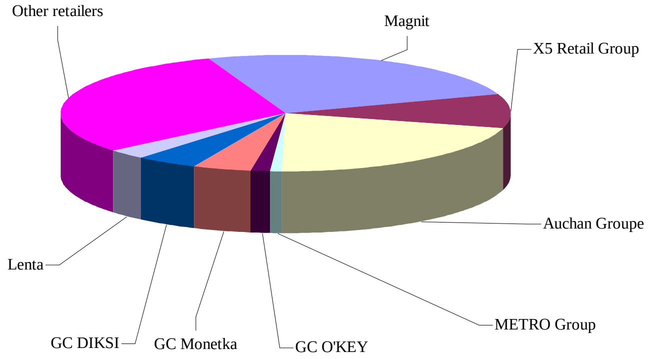


[8] The represented data include 130 chains included the monthly branch survey of INFOLine IA: TOP-92 chains with revenue over 3 billion rubles, as well as other FMCG chains, including the members of the Union of Independent Chains of Russia and Sistema T3S.

Structure of selling space growth for 130 major retailers of Russia (excluding retailers with reduced selling space) for 9 mnth. 2012, %



Structure of selling space growth for 130 major retailers of Russia (excluding retailers with reduced selling space) 9 mnth. 2013, %



Research (full version) includes the rating of the TOP largest FMCG chains

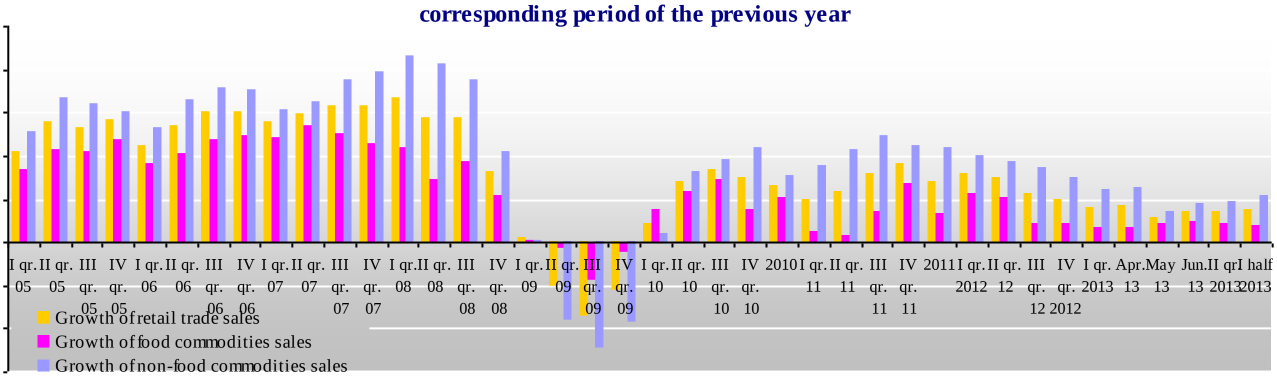
Section I. Development of retailing in Russia

Macroeconomical figures of the retail trade

In November 2013 the turnover came up to * billion rubles, in terms of commodity weight that was *% vs. November 2012 (*% in November 2012 vs. November 2011). In January- November 2013 the turnover came up to * billion rubles, in terms of commodities mass that was *% vs. January- November 2012 (*% in January- November 2012 vs. January- November 2011). <…>

Dynamics of the main figures changes of the consumer market in 2005-2013, in % as to the corresponding period of the previous year

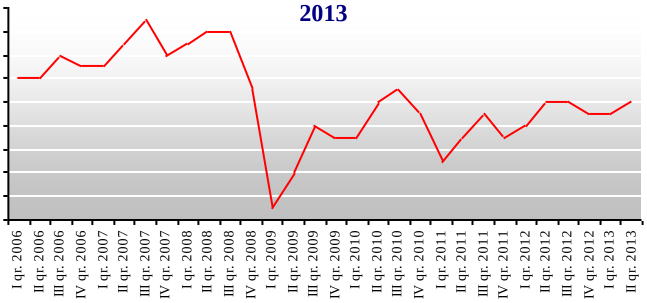


<…>

Leading indicator of retail trade development

According to the results of the polls conducted by FSSS (Federal Service of State Statistics) the Index of Business Confidence[14] decreased by 10 pp in the first half of 2009 (initial period of the recession in 2009), upon which it began to recover and according to the results of the IV quarter of 2012 the index increased by 8 pp against the first quarter of 2009. However, the index has not yet reached the pre-crisis level of confidence and it is unlikely to reach the level of 2006-2008 in the near future because of worsening of the overall macroeconomic situation. As for the evaluation of the economic climat in Russia as a whole, the economic situation[15] in Russia by the results of the II quarter of 2013, according to FSGS data, exceeded the results of the I quarter of the recessionary 2009 by 18 pp, when actual changes of economic situation came up to -12 pp.

The Index of Business Confidence in Russia 2006-2013



The evaluation of the economic enviroment in Russia 2006-2013

<…>

[14] The index of entrepreneurial confidence in retail trade is calculated as the arithmetic mean value of evaluation balances for the level of storage stock (with the opposite sign), changes in economic situation during the current quarter as compared with the previous one and expected changes in economic situation during the coming quarter (in percentage points).
The seasonal component in time series of the index is not excluded.
[15] The balance of the index changes evaluation, determined as the difference between respondents' shares which distinguished "improvement" and "decline" of the index in comparison with the previous quarter (in percentage points).

Government regulation of the retailing industry

<…>

Alcohol Market Regulation

In December 2013 Federal Agency for Alcohol Market Regulation (Rosalkogolregulirovanie) prepared a draft of amendments to the federal act on alcohol turnover and the Code of Administrative Offences of the Russian Federation. The corresponding document was published on the unitary web portal for information disclosure and its public discussion, which continues till 17 February 2014. The draft law envisages a stage-by-stage procedure for expansion of application scope for Unified State Automated Information System. According to the plan, starting from 01 November 2015 businesses which are involved into purchase, storage and supply of alcohol and alcohol-containing products in the wholesale segment must submit corresponding information to the Unified State Automated Information System. Starting from 01 June 2016 and 01 November 2016 such information is required to be submitted to the Unified State Automated Information System by businesses that distribute alcohol products in urban and rural settlements correspondingly. One year after introduction of the Unified State Automated Information System, i.e. from 01 November 2017, all organisations that have submitted information about their turnover of alcohol and alcohol-containing products to the Unified State Automated Information System should not provide reference data to other bodies.

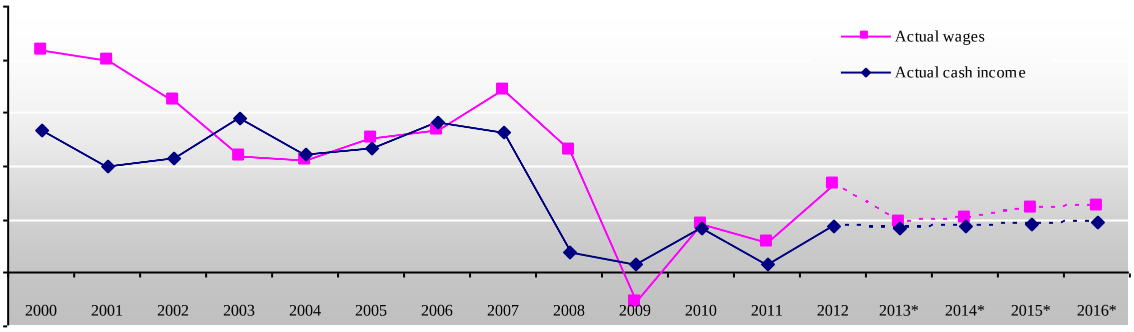
Research (full version) also contans the information on dynamics of cost on key consumer products on Russia and 8 regions of Russia

Incomes and expenditures of the population

According to the results of 2010 the growth of actual cash earnings was at the level of actual wages, while according to the results of 2011 it considerably slowed down. In April 2013 the Ministry of Economic Development decreased its forecast of salaries and wages growth in 2013 to *% from *% projected earlier. In 2014 the Ministry of Economic Development expects the salaries and wages to grow by *%, in 2015 – by *%, in 2016 – *%.

Dynamics of wages and per capita incomes of the population from 2000 to 2012 and forecast for 2013-2016 are represented in the diagrams below.

Dynamics of actual wages and actual income of population in 2000-2012 and forecast on 2013-2016, % as to the previous period



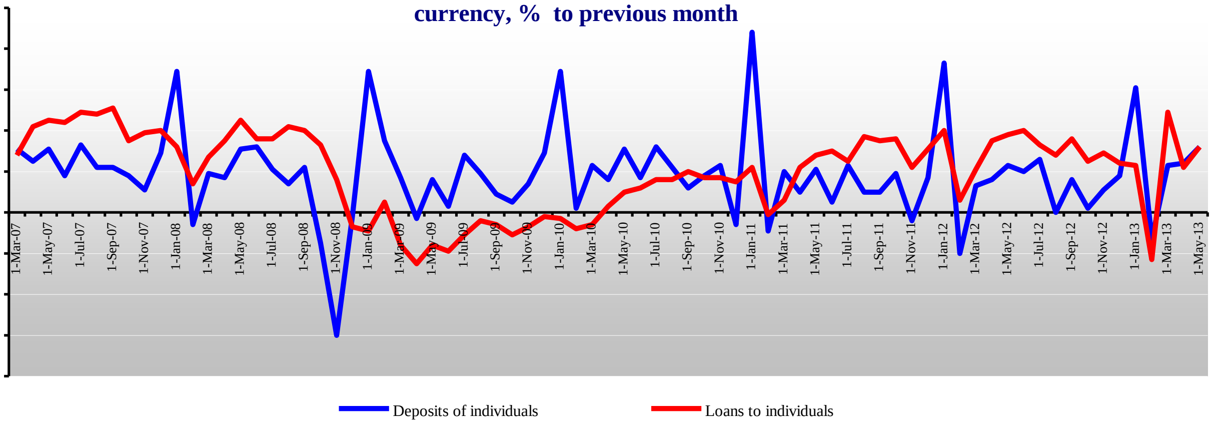
<…>

Credit and monetary policy

<…>

In June 2013 the department of financial stability of the Central Bank of the RF summarised the results of the assesment of portfolios of the major banks[16] for the first quarter of 2013. For the first time since 2012 there was noted lowering of borrowers' interest towards credit cards and pos loans (for buying commodities at retail chains). In January-March 2013 the number of borrowers with a credit card limit decreased by 16.7% in comparison with the end of 2012, borrowers with a pos loan – by 0.5%. In other segments (real estate mortgage, auto loans and cash loans) the regulator noted growing number of borrowers. According to expert opinion such dynamics is connected with anxiety of citizens to minimise their tight rate credits indebtedness. **<…>**

The volume of personal bank deposits and loans to individuals in 2007-2013, in rubles and currency, % to previous month



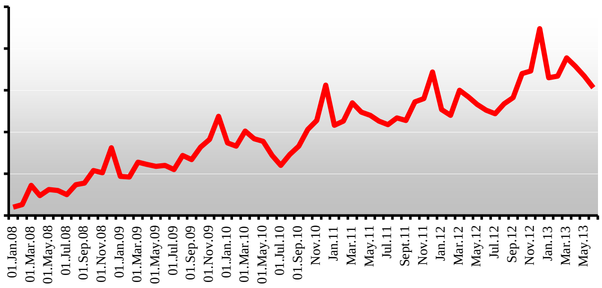
Household expenditures

According to the scan-panel of households, in November 2013 Russians' everyday consumer expenditures nominally decreased by *****% in comparison with October and by *****% from September 2013. It is the first time the decrease of consumption in the second straight autumn month is observed. In real terms the decrease of everyday consumer expenditures (in comparison with November 2012) came up to *****% and decreased by *****% with consideration of the inflation level. Very similar trend was observed in October, but at least minimal growth was demonsrated. Expenduteres on food comodities decreased from the previous year by *****%, while evryday expenditures on non-food commodities increased by *****%. By the end of 2013 an unprecedented fall of consumers' activity was declaired on food market.

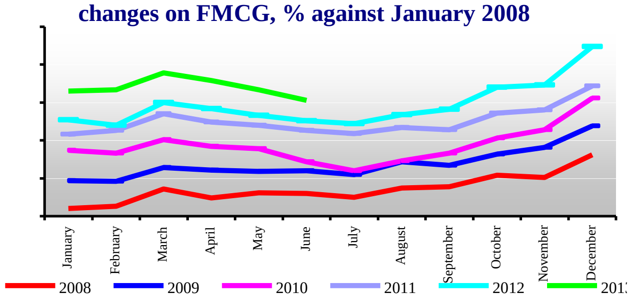
<…>

The recessionary 2009 became an exception. In this way the annual trend is again confirmed by the current year.

Dynamics of average households expenditures changes on FMCG, % against January 2008



Dynamics of average households expenditures changes on FMCG, % against January 2008



Research (full version) also includes the structure of the pernal income and expenditures, credit and monetary policy, results of the skan-panel of households following the results of the complete period, average receipt value analysis and etc.

[16] The retail portfolios of the largest banks have been subjects of research since the beginning of 2012. About 20 banks that account for more than 50% of natural persons' crediting market take part in the research work.

Consumers' expectations and confidence indexes

<…>

The results of the polls conducted by the Federal State Statistics Service among 5 000 people at the age of 16 and older, residing in all regions of the RF, during after-crisis period starting from the II quarter of 2009 and till the II quarter of 2010, the index is reflecting collective consumers' expectations. The index demonstrated growth and according to rthe esults of third quarter came up to (*%). However, in the IV quarter of 2010 and the I quarter of 2011 the dynamics of the consumer expectations index changes was negative and just in the II quarter of 2011 the index grew up by * pp to (*%), and in the III quarter of 2011 – for another * pp to (*%), in the I quarter of 2012 something improved, growing by * pp (*%), also continuing its growth in the II quarter of 2012 (*%) and in III-IV quarter 2012 demonstrated decrease by *pp (*) and (*) again. In the second quarter of 2013 the index of consumer confidence in Russia demonstrated growth by * pp against the first quarter of 2013 and came up to (*).

Section II. Other events of the retailing sector

Activities of INFOLine IA specialists

Appearances at forums and conferences

On 17 December 2013 the CEO of INFOLine IA Ivan Fedyakov, as one of the key experts, took part in the 2nd Pan-Russian Forum of Small and Medium Business "Forecast–2014". The event took place in Moscow, at Hilton Leningradskaya, and was organized by Congress and Exhibition Company "Imperia". INFOLine was its strategic professional media partner. Ivan Fedyakov presented main trends and projections of consumer market development in the RF, a detailed description of the current situation in Russian retail and commercial estate property market.

“Despite continuing slowdown of retail market and Russian economy development, retailers continue to break records of new retail facilities commissioning,” informed the CEO of INFOLine. “According to the results of 2012 the total selling space of 100 country’s largest retail companies came to 17 625 thousand square meters, increasing by more than 2.8 million in comparison with 2011. 20 retailers account for 70% of the growth. According to our forecast, in the current year the total space of companies from INFOLine Retail Russia TOP 100 rating will reach 22 000 thousand square meters. By the way, this is almost twice the results of 2009.”

In December 2013 INFOLine fulfilled an order of St. Petersburg government for collection of data for the City Commercial Register, which included more than 300 retail chains. The Committee for Development of Entrepreneurship and Consumer Market of St. Petersburg accepted the work that had been carried out for development of the City Commercial Register. This year the specialists of INFOLine, according to the order of city’s Government, collected data on 341 business entities and more than 3300 commercial facilities. Therefore, total number of retail facilities in the Register, as of the end of the expiring year, exceeded 7000, and Petersburg becomes one of the leaders among Russian regions in terms of development of this very important instrument for improvement of commercial environment.

Section III. Events and development plans of FMCG retail chains

X5 Retail Group N.V. / Pyaterochka, Perekrestok, Karusel and Perekrestok-express retail chain

X5RETAILGROUP

Company name: *X5 Retail Group N. V.* Address: *28, str.4, Srednyaya Kalitnikovskaya, Moscow, 109029.* Phones: *+7 495 6628888 +7 495 7899595* Fax: *+7 495 6628888, +7 495 7899595* E-Mail: *info@x5.ru* Web: *www.x5.ru* Chief executive: *Stephan Ducharme, CEO.*

Chain development

As of 01 October of 2013 X5 Retail Group managed 4 187 stores, with selling space of 2080.9 thousand square meters. The chain included 3 568 Pyaterochka soft discounters , Perekrestok-Express 159 convenience stores, 382 Perekrestok supermarkets, 78 Karusel hypermarkets. Logistic

In August 2013 it became known that X5 Retail Group plans to build several distribution centres in various regions of Russia. One of these distribution centres will be constructed in Orel region. X5 Retail Group has a 12-ha land plot at Krutaya Gora settlement in Orel region. Besides, the company's DCs may appear in Rostov and Samara regions. According to Denis Vasilyev, the director for regional procurement department, in 2014 X5 Retail plans to open 2 distribution centres: in Republic of Tatarstan and Rostov-on-Don. By the end of 2016 it is planned to commission a distribution center in Tyumen region.

Interaction with suppliers

In November 2013 X5 Retail Group set up the Grievance Committee. It should become a corporative arbiter for settlement of disputes with suppliers. The Committee's objective is the practical realization of Good Practice Code principles. Among other tasks it should help to improve the efficiency of contract practice of X5 Retail Group, providing grounds for an immediate dialogue between the company and its counterparties, settlement of disputes. The main functions of this committee include contemplation of complaints regarding the selection of suppliers or their disqualification, exposure of problems connected with contractual work, preparation of recommendations and suggestions with regard to the revealed problems, which can be introduced for the company's management consideration.
